LEARNING TODAY FOR A BETTER TOMORROW

The latest digital, colored perspective of the proposed elementary building has been released. On the attached drawing, you can see the elevation of the new building as well as a view from the “eye in the sky”.

The city council voted on Tuesday, December 6, to vacate the street to the north of the high school and part of the street to the east. The building plan as depicted utilizes both of these streets as vacated.

The Miller School Board timelines for the building project are to accept bids in February with an early April beginning construction date. The district is hopeful that the new building and gymnasium will be fully utilized in the 2013-2014 school year.
